NOTE: Some qualifying standards are different for Class B and Class A

(Standards in bold are those that are different from last year)

All times above are F.A.T. (Fully Automatic Timing) times. At a meet using manual or hand-held timing you must round the original time up to the next tenth and then add .24 seconds to determine if you have met these qualifying standards. Subtract .24 from all of the times above to determine the manual or hand-held qualifying time.
